

Program A: Administrative

Unless otherwise indicated, all objectives are to be accomplished during or by the end of FY 2003-2004. Objectives may be key or supporting level. The level of the objective appears after the objective number and before the objective text.

Performance indicators are made up of two parts: name and value. The indicator name describes what is being measured. The indicator value is the numeric value or level achieved within a given measurement period. For budgeting purposes, performance indicators are shown for the prior fiscal year, the current fiscal year, and alternative funding scenarios (continuation budget level and Executive Budget recommendation level) for the ensuing fiscal year of the budget document. Performance indicators may be key, supporting, or general performance information level. Key level is indicated by a "K" in the "Level" column of the standard performance indicator table. Supporting level is indicated by an "S" in the "Level" column of the standard performance indicator table. General Performance Information indicators appear in tables labeled as General Performance Information.

10. (KEY) To evaluate 46 high-priority hazardous and solid waste facilities subject to corrective action in a manner which is protective of human health and the environment by ensuring that 89% of these facilities have human health exposure problems and migration of contaminated ground water releases controlled.

Strategic Link: OEA, Objective 5 and 6: *The Environmental Assessment program, through the Environmental Technology and Remediation Services activities, will expedite remediation of high-priority RCRA facilities subject to corrective action in a manner which is protective of human health and the environment by ensuring that 89% of these facilities have human health exposures and migration of contaminated ground water controlled between July1, 2001 and June 30, 2006.*

Louisiana: Vision 2020 Link: Not Applicable

Children's Cabinet Link: Not Applicable

Other Link(s): Not Applicable

Explanatory Note: RCRA (Resource Conservation and Recovery Act) facilities include both hazardous waste and solid waste facilities. The ranking of the facilities took into account: 1. Type and design on the waste management unit. 2. Volume of waste, 3. Waste toxicity, and 4. Likelihood of a release to the environment. Other factors included: 1. Depth to groundwater, 2. Groundwater use, 3. Distance to surface water, 4. Nearest drinking intake, 5. Nearest sensitive environment, and 6. Nearby population. The ranking was performed by the U. S. EPA. EPA classified 46 facilities in Louisiana as "high priority" facilities and set a GPRA (Government Performance Result Act) goal that must be addressed by the year 2005.
